Dear Doctor Carrasquer:

Response to the proposal of a spring meeting for those from the Cincinnati, Indianapolis, Lexington, Louisville, and Nashville area who are interested in biological transport was very enthusiastic. It was therefore decided to proceed with the scheduling of the meeting. In doing so the following aspects came into consideration: (a) the meeting should take place as soon as schools end; yet before summer vacations get under way; (b) a pleasant setting should be provided for a relaxed atmosphere; (c) the meeting should be a two and half day affair with discussions in the morning and evening, leaving the afternoons free.

The first meeting will be held at Lake Cumberland State Park on June 7-9 (Tuesday-Thursday) 1966 with the following tentative schedule:

June 7, Tuesday  
6:00 p.m.  Social Hour
8:30 p.m.-10:00 p.m.  First Session
June 8, Wednesday  
9:00 a.m.-1:00 p.m.  Second Session
8:00 p.m.-10:00 p.m.  Third Session
June 9, Thursday  
9:00 a.m.-12:00 Noon  Fourth Session

The meeting will be over by noon on Thursday enabling everyone to get home on the same afternoon.

There will be no organized meals. Everyone will take care of his own meals which can be obtained in the pleasant dining room of the lodge.

Many of us plan to take along our families. The natural beauty and the excellent recreational facilities (swimming, boating, fishing, hiking, golf, etc.) can combine the business end of the meeting with relaxation for the entire family.

Because of the heavy summer schedule, it is very important that we make our room reservations as early as possible. Please fill out the enclosed questionnaire and mail it to me before November 10.

Several persons suggested that such a meeting would be of great benefit to graduate students. We are planning to invite them if enough rooms will be available. This can be decided only after the preliminary applications are returned. In order to estimate the number of interested graduate students, I am enclosing a few extra registration sheets and ask you to fill out one for each graduate student whom you would wish to bring along.

I am enclosing the list of those who expressed interest in this meeting. If you can think of anybody else who may be interested, please let me know.

Sincerely yours,

T. Z. Csaky, M.D.
