BIOLOGICAL TRANSPORT GROUP
and
MIDWEST SALT and WATER CLUB
joint meeting
at
Lake Cumberland State Resort Park
Jamestown, Kentucky
June 16-19, 1985

Join us in informal scientific sessions devoted to presentation of original data or work in progress related to any aspect of biological transport, or salt and water balance.

Freewheeling discussion, no abstracts or publications involved.

Sessions are held mornings and evenings.

Afternoons are free to enjoy the beautiful 3000 acre state park.
TO: Participants in the Lake Cumberland Biological Transport Meeting and Members of the Midwest Salt and Water Club

FROM: George A. Tanner, Ph.D., Department of Physiology and Biophysics, Indiana University School of Medicine, 635 Barnhill Drive, Indianapolis, IN 46223. Telephone 317-264-8995.

RE: 1985 Joint Meeting, June 16th (Sunday) to June 19th (Wednesday), at Lake Cumberland State Park, Jamestown, Kentucky 42629 (Telephone 502-343-3111).

This year the Lake Cumberland Biological Transport Group and the Midwest Salt and Water Club will hold a joint meeting. Both groups have overlapping interests, and by holding a joint meeting, we hope to increase attendance and see some new (and old) faces. Scientific sessions will be held mornings and evenings (from Sunday evening through Tuesday evening). The Biological Transport Group features talks on biological transport, but talks in any related area are welcome. Members of the Midwest Salt and Water Club will present papers on topics related to kidney function, salt and water balance, and hypertension. The Lake Cumberland meetings have always been characterized by informality, and frank and unbounded discussion is usually the rule. Student presentations are most welcome. Facilities for 2 x 2 slides and a chalkboard will be available.

Afternoons will be free to enjoy boating, swimming, fishing, golfing, horseback riding, tennis, hiking, bird-watching, or whatever, in this beautiful 3,000 acre state park. Housing is available in the park (see below) and meals are served in the Lodge dining room at moderate cost. Tuesday, for dinner, we plan to have a group picnic (cost approx. $3.50 for adults and $1.50 for children under 12). Be sure to bring your family! The kids love to feed the raccoons, foxes, and woodchucks.

If you would like to present a paper, please send me a title by May 1st. Feel free to call me if you have questions or suggestions (317-264-8995). Please tell your colleagues about this meeting, and post the reverse side of this notice.

The registration fee for the meeting is $8.00 per person (or family); it will be used primarily for the reception (Sunday, June 16th, 5:00 - 6:00 P.M. Central Time). Please send the registration fee to me by May 15th if possible. You may also register at the meeting.

This year we have 3 one-bedroom cottages ($70.20/day for two adults), 2 two-bedroom cottages ($81/day for four adults), and 30 Lodge rooms ($39.96/day for a single; $50.76/day for a double). In the Lodge rooms, there is a charge of $5.40 per day per adult above 2-room and $4.20 for a roll-away bed. There is no extra charge for children under 12. The rooms will be held for us until June 1, 1985, so it is essential that you make your reservation before that date. One night's deposit is required to hold your reservation. The deposit should be sent directly to Lake Cumberland State Resort Park, Jamestown, KY 42629. When making your reservation, please be sure to tell them that you will be attending the Biological Transport Meeting. For those of you who are more adventurous, it is also possible to camp at the park or rent a houseboat.

See you all in June.
